

## Project Update Template — C SSD1161

Instructions: Fill and complete one copy of this document (in GitHub /docs/updates and publish to wiki) each week or maintain a running copy and update the Week sections below. Keep links accessible to the TA (public or add as collaborator).

### Cover Info

- Team name: Group 4
- Project title: Notetaking App(Notenest)
- Members (names & emails): Ivan Du(ivandu@my.yorku.ca), Tharany Jayasankar(tharany2@my.yorku.ca), Naman Manchanda(namanm@my.yorku.ca)
- Update #1: | Date: 2025/09/30 (YYYY-MM-DD)

### Topic: Notetaking App

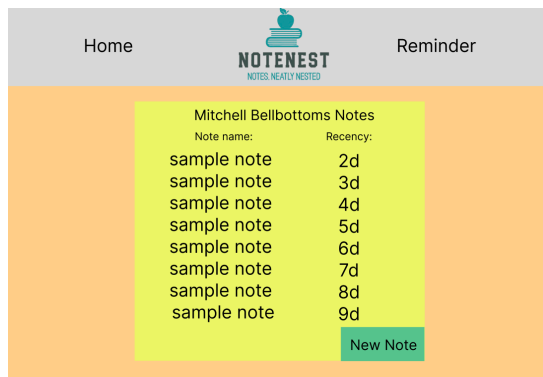

At-a-glance:

Overall status	% complete (this week)	Top risk (one line)	Ask for TA/instructor
<b>On track</b> / At risk	100% of this weeks work 5% of total project	None	None

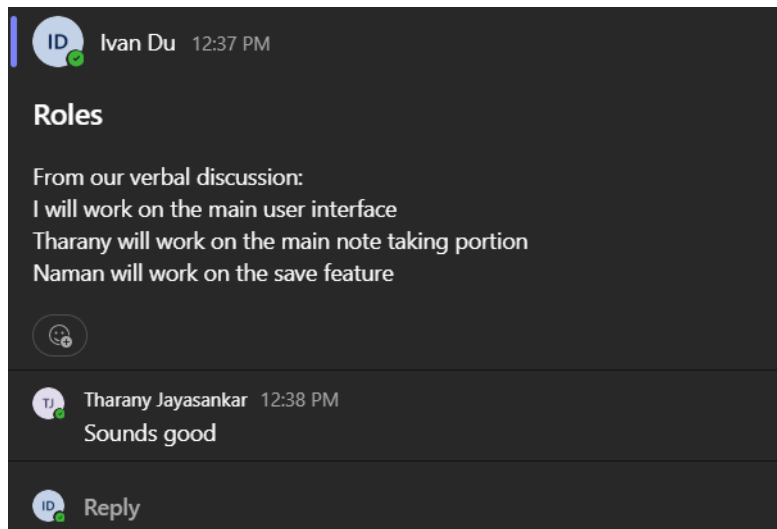

What we shipped/completed this week:

- Rough Idea of Main prototype
- Created team github
- Discussed roles and plans for next week

Evidence & Links (paste URLs):

- <https://github.com/tharanyj1-a11y/Group-4-Note-taking-app>

Decisions made (owner, date):

- The tasks that will be done for the week (Ivan, Tharany, Naman)
- Our individual roles (Ivan, Tharany, Naman)

Challenges & risks (severity, mitigation):

- Haven't learned python GUI coding (minor risk)(Alternative is use Java)

Plan for next week (task → owner → due date):

- Start coding main UI - Ivan (Next Sunday)
- Start working on the note taking part - Tharany (Next Sunday)
- Start working on the save feature - Naman (Next Sunday)

### Optional Self-Evaluation (per week)

Week	What went well	What was hard	One concrete improvement
4	...	...	...
5	...	...	...
6	...	...	...

### Submission Block to LMS (paste into LMS)

- Repo (main): <https://github.com/tharanyj1-a11y/Group-4-Note-taking-app>
- Wiki Home: <https://github.com/tharanyj1-a11y/Group-4-Note-taking-app/wiki>
- This document (uploaded)
- Any notes for TA: N/A
